LITHOS
CONSULTING

Who we are

LITHOS

- A medium sized **Geo-environmental Consultancy** based in Wetherby, North of England
- Team of 23 engineers
- Rural location

- Lithos has been in existence for 16 years.
- We have grown to a team of 23 based in our purpose-built offices in Wetherby, West Yorkshire.
- A rural location – close to motorways but within walking distance to town.
- Idyllic location for cycling, walking and running, which many of our employees do in their free time.

What we do

LITHOS

What is Geo-environmental consultancy?

- Who needs us?
- Why?
- Because we **reduce uncertainty in the ground**

- Our clients include housebuilders, local councils, banks & government agencies.
- Our services are for anyone who is developing, valuing, operating, or buying & selling a site, plus anyone assessing the environmental impact of their work on the land they are located upon.
- Our role is to reduce uncertainty in the ground. By gaining as much information as possible, applying our experience & judgement and assessing data to make as thorough a conceptual model of a site as possible.

What we do

LITHOS

We broadly provide the following services:

- Site investigation
- Monitoring of groundwater and gas
- Construction support to developers
- Land remediation supervision
- Geotechnical engineering
- Land contamination

- Go to our website to find more information about what we do.
- Lots of case studies!

We are recruiting!

LITHOS

Opportunities each year

- Student Engineer - year in Industry placement
- Graduate Engineer

- At least one year in industry Student Engineer per year and a we take on a Graduate each year too.
- The student post usually starts in Aug, the Graduate starts in October, although the start date can be flexible.

Student / Graduate Engineer

LITHOS

Benefits of working for us:

- **Varied workload – mix of office and outdoors**
- **No long periods working away from home**
- Competitive salary and bonus scheme 2x year
- Pension scheme – 9%
- Company van, laptop, mobile and PPE
- **'Route to Chartership' from day 1**

- We offer a competitive salary and pension and we also pay a bonus twice a year, plus a company van and all the PPE you would need.
- What sets us apart is that we ensure a varied workload - you would spend 60% of your time out on site and 40% in the office.
- With us, you're not spending long periods at a remote site, working away from home, like you may well do if you were working for a Contractor.
- We invest heavily in your training, personal and career development and provide a guaranteed 'route to Chartership'.

- Career progression and support is really important to us and you will be learning from technical experts.
- Our directors have over 90 years of industry experience between them, whilst our senior leadership team have a further 100 years of relevant industry experience relating to geoenvironmental consultancy and remediation.
- A great opportunity to work for an inclusive, growing consultancy based in the North of England. Our work is varied, interesting and challenging. Most sites are commutable from our base in Wetherby - this is fantastic if you want the right work-life balance and don't want to spend long periods of time staying away from home.
- The nature of our work, our strong culture and ethos means teamwork, collaboration, communication, mentoring and personal development are core to everything we do.
- Working for Lithos you'll benefit from an open, friendly, stimulating and supportive office environment where you will develop and grow.
- As a progressive employer we take an individual approach, therefore we can be responsive, supportive and flexible towards all our employees - you will not be lost in the crowd.
- Several Engineers have been with us over 10 years, and multiple people started with us as a Student Engineer, then return as a Graduate and then stay with us and progress their career in geo-environmental engineering at Lithos.
